

# Industrial Drum Immersion Heaters

P# DM-55BEH Series for Bung Entry Immersion into Drum

## Design Features

- Fits in standard 2" bung opening in 55 gallon metal drums and tanks
- Adjustable height mounting bracket constructed of stainless steel
- 60-250°F thermostat includes an on/off heater status indicator
- Ideal for lowering thickness of most high viscosity solutions
- Liquid can fluctuate safely with bottom 8" section heated
- Pilot lamp displays continuing temperature status
- Over-temperature cutout prevents over-heating

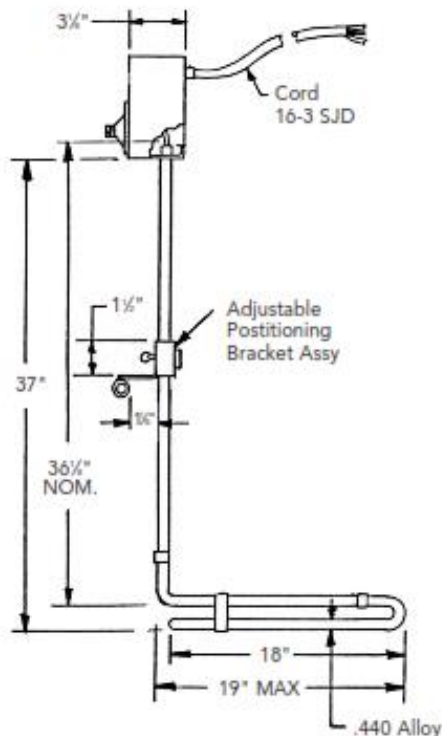

## Product Codes & Specifications

P# **DM-55BEH-1**, 2" bung entry, 120 volt, 1000 watts, Range: 60-250°F

P# **DM-55BEH-2**, 2" bung entry, 240 volt/1PH, 4000 watts, Range: 60-250°F

## Optional Features

- **Temp Control:** Process thermocouple or thermostat
- **Heat Sheath Types:** Stainless Steel or Incoloy
- **Control Enclosure:** **NEMA 4** (moisture resistant) **NEMA 7** (explosion resistant)
- **Wiring Options:** Plain lead wire & plug, armored or wire braided cable

**Drum-Mates, Inc., Process Equipment Div.**
