

# Fume Barrier - Pump Tube Bung Adapter

Model No. DM-55PFB/L162, for common 1.6" OD Drum Pump Tubes

For plastic or stainless steel pump tubes in steel or plastic drums

## Features & Operating Information

Removing hazardous liquids, from drums and IBC's (totes) requires careful consideration for the safety of the operator, environment and equipment in the process area. "HazMat" materials, such as corrosive, poisonous, noxious, toxic or other harmful liquids, need to be kept separated from the atmosphere and transported via hard hose connections to it's destination.

Whether shifting small batches or dispensing to bulk storage, the transfer of hazardous materials require emission protection during pumping operations, yet be as convenient as possible under practical conditions. This fume barrier provides more safety with less work while protecting the operator, the environment and the drive motor from hazardous, aggressive gases or vapors.

- **Single drum adapter has two integrated relief valves.**
- **Emission protection guaranteed with the "active seal".**
- **Seal remains effective despite pump tube wear and tear, damage or small diameter variation.**
- **Bung thread converters allow adapter to be used in various container bung opening sizes.**
- **Simple installation using a plug-in connection for individual adaptation.**
- **316 stainless alloy gives excellent chemical compatibility for most applications.**
- **Stability ensured by integrated spring loaded mechanism.**
- **Container cup available for container emptying.**
- **Large pressure relief valves give normal pressure equalization during high flow**

<u>Equipment Data</u>	<u>Material</u>	<u>Size</u>	<u>Part Number</u>
Tube Specifications:	Polypropylene	1.58" & 1.62" OD	DM-55/0204-250
	Brass	1.62"OD	DM-55/0204-252
	Stainless steel	1.62"OD	DM-55/0204-253
Seals	Viton or EPDM		on request

### Optional Accessories

Fume barrier hose assembly for sealing pump tubes	0.375"	DM-55/0204-272
2" bung ThreadConverters for Buttress and Mauser coarse threads		DM-55BCF/ ask

DRUM-MATES® equipment assemblies are provided as separate components each sold on a separate basis. Ask for literature on DRUM-MATES® drum & IBC mixers, drum tumblers, drum & IBC pumps & hand nozzles. DRUM-MATES® Inc., Drum Mixer & Pump Div., Tel: 800-621-3786 and 609-261-1033, Fax: 609-261-1034
