

HeatSaver™ Insulating Drum Wrap Blanket

Helps Prevent Loss of Drum Heat

Included FREE! TopHat™ Drum Top Insulated Cover!

Now Safely Insulate Your Drum in any Season...

Benefits & Advantages

- **HeatSaver™** helps maintain your preferred temperature
- EasyMount belt closure for quick, secure, safe mounting
- Cover port permits easy access to the drum bung hole
- Works with industrial drum heaters of all kinds*
- Single wall insulation (also available in double wall insulation)
- *Included FREE*, easy mounting, insulated drum-top cover

Model No. DM-55DPB/1W, Drum Protection Blanket, single wall
With FREE insulated drum-top cover, and EasyMount Belt Closure

Model No. DM-55DPB/2W, Drum Protection Blanket, double wall
With FREE insulated drum-top cover, and EasyMount Belt Closure

This super-strong, heavy duty insulating blanket has a durable vinyl outer jacket ready to protect 55 gallon (220 liter) metal or plastic drums from cooling. The **HeatSaver™** can help keep your drum at the temperature you prefer much better if sheltered from cold weather, and when used in conjunction with the appropriate drum heater. An integral insulating layer helps direct the existing heat energy almost entirely inward toward the drum's contents.

***NOTE:** This blanket may not fit over certain drum cartridges or band heaters due to components attached to the heater element that add girth beyond the blanket fitting capacity. DRUM-MATES does not encourage cutting the blanket. Any blanket trimming or adjustment is the sole responsibility and liability of the buyer or end user.

EasyMount™ Wrap Closure

The **EasyMount™** belt closure provides easy, trouble-free, mounting and easy dismounting from drum-to-drum. It quickly cinch-straps up for best fit and maximum tightness to the drum wall reducing the possibility of thermal loss. This durable, light weight insulated covering is ideal for both indoor and outdoor use (sheltered from weather).

Optional Transfer Accessories

- Drum Dispensing Pumps
- Hand Dispensing Nozzle
- Bung-mount Dispensing Hose
